Baya

Portable or
in-ground version

Baya, the indoor spa

Baya is the perfect choice to transform any indoor space into a place of well-being, ease and respite. Two form fitted loungers oriented face to face ensure unforgettable moments of relaxation and awakened sensation.

Baya is only 66 cm high so you can easily step in and out, even without a step. Furthermore, its low lines make it easy to manoeuvre through narrow interior doors.

The portable version features an attractive surround made of

- Solid red cedar 7 mm thick.
- Composite wood (grey, havana, coral).

REMOTE INSTALL KITS

Remote installation kits are available to allow installation of the spa pack at a distance from our in-ground and portable spas.

These kits comprise 7.5 metres of the various tubes and hoses required to connect the spa pack (blower, heater, ozonator, two-speed pump and massage pumps).
